Sherry Boschert on Title IX's 50 Year History
Wednesday, April 5th 6pm

37 Words: Title IX and Fifty Years of Fighting Sex Discrimination is a sweeping history of Title IX, the law that prohibits sex discrimination in federally funded education. Half a century of legal battles and social backlash revolve around a law that girls and women wield to demand fairness in education. Learn more about the complete history of Title IX through the gutsy people behind it, from women denied jobs at the law's beginnings to students struggling against sexual assault today. Their intersecting narratives offer a timeless playbook for anyone who is horrified by current attacks on women's rights and is wondering what to do about them.
